at 14760 Schoolhouse Line, Moravian.

The P.E.A.C.E. Program
“Police Ethnic and Cultural Exchange”
Western Region OPP

PROGRAM DESCRIPTION:

The Ontario Provincial Police, Western Region, encourage First Nations communities to employ a summer student, for an 8-week placement at a local OPP detachment during the months of July and August of each year. The successful 18 to 20 year old applicant will work with the local detachment of the O.P.P. under the supervision of assigned members. The Ontario Provincial Police seek the support of local Band Councils through their hiring of a suitable summer student candidate.

As a participant in this initiative the student will have hands on exposure to all aspects of police operations. The student will also work on police/community related projects that will enhance their ability to work effectively as a team member. Specific work projects will be conducted in a manner that will give the student broad exposure to policing functions. In addition, they will be introduced to effective goal setting and time management techniques.

PROGRAM OBJECTIVE

The object of this initiative is twofold. Firstly, the P.E.A.C.E. Program will give selected First Nations youth the opportunity to experience policing concerns within the broader community, while allowing them the opportunity to develop good work habits and organizational skills. Their experience will provide them with a greater understanding of the true nature of police work, thereby assisting them to make an informed decision about policing as a career choice. It is hoped that the participants will develop an attitude of community caring and commitment that will remain with them throughout life. Secondly, the policing community, through interaction with the First Nations youth, will develop partnerships and an improved understanding of the First Nations community, its youth and their concerns.

SKILLS TO BE TAUGHT & EXPERIENCED

The specific skills to be taught and experienced during the summer will include:

- Time management
- Goal setting
- Presentation skills
- Interview skills
- Team work
- Effective communication skills
- Sensitivity to the cultural diversity of the community
- Community living
- Awareness of crime and the impact on the community
- Environmental concerns their impact on public safety

CERVICAL CANCER AWARENESS CAMPAIGN

WHAT IS CANCER SCREENING?

Cancer screening means taking a test that can find cancer before you have any symptoms. Finding cancer early is one of the best ways we have of beating it. Getting screened regularly leads to healthier and happier lives for you, your family, and your community.

Calling all women:

Women ages 21 years or older who have ever had any sexual skin-to-skin contact should have a Pap test every 3 years. Women can stop having Pap tests at age 70 if they have had three normal Pap tests in the past 10 years.

What you should do

If you think you became sick from consuming a recalled product, call your doctor.

Check to see if you have recalled product in your home. Recalled products should be thrown out or returned to the store where they were purchased.

Spoiled packages may not be necessarily dangerous and may be identifiable. However, if spoiled food is inadvertently consumed, it is advisable to watch for symptoms that may include upset stomach, vomiting and diarrhea.

- [Sign up for recall notifications by email, follow us on Twitter, or join the CFIA \(Canadian Food Inspection Agency\) community on Facebook](#)
- [View our detailed explanation of the food safety investigation and recall process](#)

Background

This recall was triggered by consumer complaints. The Canadian Food Inspection Agency (CFIA) is conducting a food safety investigation, which may lead to the recall of other products. If other high-risk products are recalled, the CFIA (Canadian Food Inspection Agency) will notify the public through updated Food Recall Warnings.

The CFIA (Canadian Food Inspection Agency) is verifying that industry is removing

recalled product from the marketplace.

Illnesses

There have been no reported illnesses associated with the consumption of these products.
