Hello!

My name is Lauren Whiteye, I am a Delaware Nation member and I'm so excited to step into the role of Infant Teacher at Delaware Nation Early Learning Centre. This opportunity means the world to me, as I was raised right here in this community—and I'm proud to say I once attended this very centre as a child. This opportunity to become an infant teacher has always been a dream of mine.

I graduated with an Early Childhood Education diploma with St Clair College back in 2013, I have over 5 years of child care experience. Child development has always been an interest of mine and my biggest inspiration in all of this is my grandmother who brought Moravian Day Care to life many moons ago.

Looking forward to reconnecting with familiar faces and getting to know new families.

I can't wait to meet everyone and begin this exciting journey together. Thank you for welcoming me home!

Lauren

RDHS-NEWSLETTER

WHAT'S NEW

The Delaware Room has been busy the past couple weeks. On April 10th, Mr. White-Lightening Clark gave the First Nation students the opportunity to make hand drums. 8 students in total made hand drums and enjoyed the time spent learning and striking their drum once dried. Next is to learn some songs.

Character Trait Awards

At Naahii Ridge, good character is something to be proud of! Each month, the school highlights a different character trait—such as Integrity, respect, cooperation.

Classroom teachers select one student from their class who best demonstrates that quality.

Students are chosen to receive special recognition during a school-wide assembly, where they are celebrated in front of their peers and presented with a certificate.

CONGRATULATIONS!

Mental Health First Aid as well as Psychological First Aid are designed to support individuals experiencing emotional or mental distress – but they differ in approach, audience, depth, and scope

Purpose & Approach

- **Focus:** Teaches participants how to recognize signs of mental health problems or crises and how to offer initial help until professional help is obtained.
- **Approach:** It's like CPR, but for mental health – designed to be used in emergency or acute situations (e.g., panic attack, suicidal ideation).
- **Model:** Uses a structured ALGEE action plan:
 - **A:** Approach, assess and assist with any crisis
 - **L:** Listen non – judgmentally
 - **G:** Give reassurances and information
 - **E:** Encourage appropriate professional help
 - **E:** Encourage other supports

What is Advance Care Planning?

Advance Care Planning (ACP) is the process of thinking about what matters most to you in your life and what that means for your health and personal care. ACP helps you share your wishes and preferences with the people who are important to you so they can help make sure you get the care you want.

What are wishes and preferences?

Your **wishes** are your hopes and desires regarding your health and personal care. Your **preferences** are the specific choices you would make in various situations. By sharing these with your loved ones, you help them understand and respect the decisions you would make for yourself.

Why create an advance care plan?

Advance care planning is part of life planning and can help everyone, including healthcare providers, understand your goals so that the care you receive respects your wishes and preferences. It is an important step in taking control of your healthcare journey because it allows you to express your wishes and what is important to you. Sharing your wishes can help your support network feel more comfortable expressing them if needed.

Who is ACP for?

Everyone! ACP is for people across Canada, from young to old, of all abilities. It is for people in good health and those who have health needs.

Hello! My name is Destiny

She:koli, Koolamalsi. I would like to formally introduce myself as the new Family Well being worker at Delaware Nation Health Centre.

I am from Oneida Nation and I am Wolf clan. My partner Primo Whiteye and I have 4 amazing children together whom are all members of Delaware Nation. I am so excited to plan fun, cultural driven programming for the community. I look forward to meeting with everyone and hearing your feedback on programming you would like to see for Family Wellness.

Measles

Measles is a highly contagious viral infection (an illness caused by a virus) that spreads easily through respiratory droplets when an infected person coughs, sneezes or talks. The virus can also be spread by touching contaminated surfaces (e.g., doorknobs, countertop and shared objects) and then touching your eyes, nose, or mouth. It can remain active in the air or on surfaces for up to two hours, making it highly transmissible in shared spaces.

Measles can lead to serious complications, including ear infections, pneumonia, and brain damage. While rare, it can be fatal.

Vaccination is the best way to protect yourself and your family from measles. **Check or update your immunization record** to ensure you and your family are up to date with vaccinations.

Diagnosis & Treatment

Measles is diagnosed through laboratory tests. To confirm the diagnosis, a healthcare provider will collect a sample, which may include:

- Swabs from your nose or throat
- A blood test
- A urine test

There is no specific treatment for measles, but medications can help relieve symptoms and manage any complications. Most people with measles recover at home, but severe cases may require hospitalization.

A healthcare provider will likely:

- Recommend medications to reduce fever
- Advise you to drink plenty of fluids and get lots of rest

If your symptoms worsen, contact your healthcare provider.

Measles vaccination is the best way to protect yourself and others from the virus and prevent infection.

Prevention & Vaccine Eligibility

The most effective way to prevent measles is through vaccination. Two doses of a measles-containing vaccine provide nearly 100% protection against infection.

Measles Health Alert

Measles cases have been identified in Chatham-Kent. Check your vaccine records to ensure you and your family are protected.

Individuals and/or their children who have been exposed to the measles virus and are not fully vaccinated are advised to call CK Public Health at 519-352-7270 ext 5902.

If you are experiencing symptoms of measles and need to visit a healthcare provider, emergency department or walk-in clinic, call first and tell them you have had an exposure and measles symptoms.
