### Thank You to the Community

On behalf of our family, we would like to express our gratitude to everyone who offered their support following the passing of our father, Don Whiteye Sr.

We have been deeply touched by the many kind words, prayers, flowers, food donations, visits, phone calls, messages, and acts of kindness that we have received. During this difficult time, the love and support shown by our community has brought us great comfort.

Our father valued family, community, and friendship throughout his life, and seeing so many people come together to honor his memory has meant more to us than words can express.

Thank you for keeping our family in your thoughts and prayers and for helping us celebrate the life of a man who was loved and respected.

Charlene, Joe, Rhonda, Jolene and families.

Grade 5 attended the Racing Against Drugs event, where they participated in a series of interactive stations focused on substance awareness and mental health. Students learned about the harmful effects of drug and alcohol use, while also exploring positive coping strategies and available mental health supports. The event provided an engaging and informative experience, empowering students to make healthy choices and seek help when needed.

Naahii Ridge Public School's Talent Show was a great success, with students proudly showcasing their talents. A highlight of the event was Sev Stonefish, who sang his heart out. It was a fun and memorable time for all!

Kingsley Llarenas  
& Mathew Huff

Grade 6 students Kingsley and Mathew visited the Delaware Room at RDHS, where they met Angel, Secondary Student Success Worker; Garrette, First Nations Student Advocate Worker; and White-Lightning, LKDSB Indigenous Grad Coach. The visit gave them a chance to learn more about the supports available as they prepare for their transition to Grade 7. The day was filled with fun and connection, including time spent outdoors, enjoying lunch together, and participating in games.

## Track & Field Day

Grades 4–6 students recently participated in their School Track & Field event held at Chatham Kent Secondary School. It was a beautiful day, and all students gave their best effort while enjoying the outdoor activities and friendly competition.

***Congratulations to Adalyn Noah, Braylee Noah-Jones, Noel Whiteye and Keira Julian-Hopkins, who have advanced to SKESSA Track Meet.***

Chief and Council  
 Moravian of the Thames First Nation  
 RR# 3  
 Thamesville, On.  
 N0P 2K0

Dear Chief and Council:

**Re: Water Analysis Result-Moravian of The Thames First Nation-Health Centre**

Water samples taken from the Moravian Town Health Centre on June 3, 2026, come out with sodium level 109 mg/l. The result indicates that sodium level analysed is above 20 mg/L.

The guideline for sodium in the Guidelines for Canadian Drinking Water Quality and the standard for sodium in the Ontario Drinking Water Quality Standards is 20 mg/L for those on **sodium restricted diets** and 200 mg/L **for non-sodium restricted diets**. Sodium in drinking water is not considered to be toxic to a healthy person, however if someone is on a sodium restricted diet they should seek the advice of a physician. Please see the attached information sheet

If you have any questions or comments, please do not hesitate to contact my office at (519) 645-5886 or my cell at 519-200-5260

Thanks

**SODIUM IN DRINKING WATER**

This fact sheet is intended to convey information about sodium levels in drinking water in Morovian Nation of Thames

The level of sodium in the Health Centre , Moravian of The Thames First Nation water system is 109 mg/L. The Aesthetic objective for sodium in drinking water is 200mg/L. However , when sodium levels is higher than 20mg/L local residents should be informed to help person with sodium restricted diets control their sodium intake.

This is bacteriologically safe water supply. Drinking up to two litres of water per day would contribute (109 mg/L x2 L) 218 milligrams of sodium to a person's diet. For healthy adults, this sodium level in drinking water **does not pose a risk**. Most adults consume 4000-5000mg of sodium per day. For people on very strict, strict or moderate sodium restricted diets, the amount of sodium in the water may be significant. (See chart below)

Your body needs sodium in order to maintain blood pressure, control fluid levels and for normal nerve and muscle function. Food or water is not the only source of sodium in our diets. Sodium also can be found in drugs such as antacids, laxatives, aspirin and cough medicines. Sodium also can be obtained from table salt. One teaspoon of table salt contains 2300mg of sodium.

Sodium Restricted Diet Summary

	Maximum intake of sodium allowed per day	Amount of sodium in 2L of water
Very strict diet	500mg/day	218mg/day
Strict diet	1000mg/day	218mg//day
Moderate diet	2000mg/day	218mg/day
Mild Diet	3000mg/day	218mg/day

If you any questions about sodium in your drinking water, please consult your physician or call your health centre at:

Who is  
**MOST AT  
RISK?**

**FACT 1**  
**OLDER  
ADULTS**

Older adults may be faced with compounding factors that could put them at increased risk during extreme heat events. These factors may include chronic illnesses, medications that interfere with the body's cooling mechanisms, social isolation, and poverty.

**FACT 2**  
**INFANTS AND  
YOUNG  
CHILDREN**

Given the unique physiological characteristics of children's bodies and their high dependency on caregivers, they are likely to be at risk during extreme heat events.

**FACT 3**  
**CHRONIC  
ILLNESS/  
SPECIAL  
MEDICATION**

Individuals with breathing difficulties, heart problems, and psychiatric illnesses are at a higher risk of heat-related health effects.

**FACT 4**  
**PEOPLE WHO WORK  
OR ARE ACTIVE  
OUTDOORS**

People who work outdoors (e.g. construction, road repair) and physically active individuals who exercise in the heat could face greater environmental heat exposure and physical strain.

# SAFETY TIPS

## TIP 1 PREPARE FOR THE HEAT

- Tune in regularly to local weather forecasts and alerts so you know when to take extra care.
- If you have an air conditioner, make sure it works properly.
- If you don't have an air conditioner, find an air-conditioned spot close by where you can cool off for a few hours on very hot days.

## TIP 2 KNOW THE SIGNS OF HEAT-RELATED ILLNESSES

## TIP 3 PAY ATTENTION TO HOW YOU AND THOSE AROUND YOU FEEL

Frequently visit neighbors, friends and older family members, especially those who are chronically ill, to make sure that they are cool and hydrated.

## TIP 4 DRINK WATER

## TIP 5 STAY COOL

### *How to stay cool?*

Wear loose-fitting, light-coloured clothing made of breathable fabric.

Take cool showers or baths until you feel refreshed.

Plan strenuous outdoor activities for cooler days, or choose a cooler location, like a place with air conditioning or with tree shade.

Spend time in a cool place. It could be a tree-shaded area, swimming facility or an air-conditioned spot.

# HEAT EXHAUSTION

Skin rash

Muscle cramps

Dizziness or fainting

Nausea or vomiting

Heavy sweating

Headache

Rapid breathing and heartbeat

Extreme thirst

Dark urine and decreased urination

If you experience any of these symptoms during extreme heat, immediately move to a cool place and drink water.

What are the **SIGNS AND SYMPTOMS** of heat illness?

# HEAT STROKE

High body temperature

Confusion and lack of coordination

Dizziness/  
Fainting

No sweating,  
but very hot,  
red skin

Heat stroke is a medical emergency! **Call 911 or your local emergency number immediately.** While waiting for help—cool the person right away by:

- moving them to a cool place, if you can;
- applying cold water to large areas of the skin; and
- fanning the person as much as possible.
