### **Evan Timothy ~ June 10, 1984**

The blow was great, the chock severe,  
We little thought the end was near,  
And only those who have lost can tell  
The pain of parting without farewell.  
More each day we miss you,  
Friends may think the wound is heled,  
But they little know the sorrow  
That lies within in our heats concealed  
From the Family

### **Beulah Timothy ~ June 27, 2008**

We seldom ask for miracles,  
But today, one would do,  
To have the front door open,  
And see you walking throught,  
A million times we've missed you,  
A million times wr've cried,  
If we could have saved you,  
You never would have died,  
You suffered much in silence,  
But your spirit did not bend,  
You faved your pain with courage,  
Up till the very end,  
To us you were so special,  
What more is there to day,  
Except to wish with all our hearts,  
That you were here today.

# ZERO TOLERANCE

Eelūnaapéewi Lahkéewiit believes every employee has the right to work in a safe healthy workplace environment.

We also believe every client, family and visitor to our offices have the right to receive service in a safe environment.

We will not tolerate swearing, threatening language, angry outbursts or aggressive behaviours of any kind.

Police will be contacted to intervene to end any incident of abuse. This intervention may result in the removal of the client, family member or visitor from the Eelūnaapéewi Lahkéewiit workplace and/or charges being laid.

This may also result in the discontinuation of some or all services to that individual.

## Canada's Wonderland Survey

Thank you to those that have sent in their surveys. So far, we have received five responses with the majority stating that a July trip would be best and that we need to make sure that the water park at Wonderland is open on the day that we go. We also received suggestions to go to other destinations such as Cedar Point, or perhaps an overnight trip to Toronto. These are great suggestions and we would like to know what your thoughts are. You can drop off the following form at the Band Office or email to: [education.manager@delawarenation.on.ca](mailto:education.manager@delawarenation.on.ca)

Canada's Wonderland Survey – Submit to Band Office or email to <a href="mailto:education.manager@delawarenation.on.ca">education.manager@delawarenation.on.ca</a>	
Did you attend this year's Canada's Wonderland Trip?	Yes or No
Did you take the bus?	Yes or No
Would you change the date of the trip? If so, which date would you change it to?	
Would you like to see a different destination for this annual community trip? If so, where?	
Do you have any further suggestions on how this trip can be improved?	
Thank you for completing and submitting our survey 😊	

## Summer Credit Program – Summer Lenape Language

Notices were sent to parents of students in grades 8 to 12 regarding the summer credit program. The deadline to sign up for the program was Friday, June 19 and the program will begin on Monday, June 29 and ends July 27.

This land-based learning program gives students the opportunity to earn a credit toward their Ontario Secondary School Diploma while taking part in culturally relevant, land-based learning experiences. We are excited to once again have Kristin Jacobs leading the program this year. Kristin is incredibly knowledgeable, supportive, and passionate about our language, and we know students will benefit greatly from learning alongside her.

## Indigenous Trustee

If you are a Delaware Nation band member and are interested in serving as the Indigenous Trustee for the Lambton Kent District School Board (LKDSB), please forward your resume to [education.manager@delawarenation.on.ca](mailto:education.manager@delawarenation.on.ca).

The Indigenous Trustee position is a four-year term and rotates among the four First Nation communities represented within the Board: Eelûnaapéewi Lahkéewiit (Delaware Nation), Bkejwanong (Walpole Island First Nation), Aamjiwnaang First Nation, and Kettle & Stony Point First Nation.

The previous three terms have been held by representatives from Aamjiwnaang First Nation and Kettle & Stony Point First Nation. As such, it is anticipated that the next appointment will come from our community.

The Indigenous Trustee serves as a member of the LKDSB Board of Trustees and advocates for the educational interests and success of students from the four First Nations.

## That's a Wrap!

Last day of school is June 25 and we will also be celebrating our kindergarten graduates. We are incredibly proud of the hard work, perseverance, and growth our students have shown

throughout the year. Each of you has faced challenges, celebrated successes, and learned valuable lessons along the way. We also want to recognize our dedicated staff, who have provided guidance, encouragement, and support whenever it was needed.

As we head into summer, take time to relax, have fun, and enjoy the company of family and friends. Whether your year was smooth sailing or had a few bumps along the way, we hope you leave with accomplishments to be proud of and memories to cherish. Wishing everyone a safe, exciting, relaxing, and enjoyable summer. We look forward to seeing you again in the fall! 🍷 🧠

Senior Kindergarten students from Eelunaapewwi Lahkewiit Kindergarten, who are preparing to transition into Grade 1, enjoyed a special visit to Naahii Ridge.

They were excited to ride the big bus to and from the school.

Throughout the day, students met new friends, explored the Learning Commons, and spent time playing both indoors and outside.

The visit was filled with smiles, laughter, and ended with a sweet popsicle treat, making it a fun and memorable day for everyone.

Students had a fantastic time participating in the school Dance-a-thon while raising money for new technology equipment.

The event was filled with music, excitement, and plenty of dancing as students showed off their moves and supported a great cause.

As a school, they raised over \$9,300.

Throughout the day, there was lots of energy, laughter, and school spirit as everyone joined in the fun.

After all their hard work on the dance floor, students cooled off with a refreshing freezie and enjoyed celebrating together.

It was a fun and successful event for everyone involved!

# West Nile Virus Fact Sheet

## What is West Nile Virus?

A mosquito-borne infection found in many parts of Canada, especially during the summer and early fall.

## How do people get it?

- Most commonly spread through the bite of an infected mosquito
- Rarely spread through:
  - Blood transfusion
  - Organ transplant
  - From mother to baby during pregnancy/breastfeeding
- **Not** spread by casual contact such as touching, coughing, or sneezing

## How is it diagnosed?

A doctor or nurse practitioner may diagnose based on symptoms and possible exposure to mosquitoes. Blood tests may be used to help confirm the diagnosis.

## How do I prevent it?

- Use insect repellent (e.g., DEET or icaridin) on skin
- Wear long sleeves, long pants, and light-coloured clothing when outdoors
- Keep doors closed and limit being outdoors at dawn and dusk, when mosquitoes are most active
- Remove standing water around your home (e.g., buckets, containers, birdbaths, clogged gutters, tires)
- Use mosquito netting over sleeping or resting areas when needed

## How is it treated?

There is no specific treatment. Most people recover with fluids and rest.

## What are the common symptoms?

Symptoms usually appear 2-14 days after a mosquito bite and may include:

- Fever
- Headache
- Body aches

# Lyme Disease Fact Sheet

## What is Lyme disease?

A bacterial infection spread by the bite of an infected blacklegged tick (deer or western). It can usually be treated successfully with antibiotics, especially when caught early.

## How do people get it?

Blacklegged ticks can become infected with the bacteria that causes Lyme disease. They then pass on the bacteria by:

- Biting a human
- Staying on the human for at least 24 hours

People are often bitten while hiking, camping, and when spending times outdoors in wooded areas, tall grass, and brush.

## How is it diagnosed?

A doctor or nurse practitioner may diagnose Lyme disease based on symptoms and possible exposure to ticks. Blood tests may be used to help confirm the diagnosis.

## What should I do if I find a tick?

Remove the tick as soon as possible.

Steps to remove a tick:

- Use fine-tipped tweezers
- Grasp the tick close to the skin
- Pull upward slowly and steadily
- Clean the bite area with soap and water

Avoid using methods such as burning the tick or applying substances like petroleum jelly, as these are not safe or effective.

Contact a healthcare provider if you develop symptoms after a tick bite.

## How is it treated?

Lyme disease is usually treated with antibiotics for about 2–3 weeks. Early diagnosis and treatment help prevent complications.

## What are the common symptoms?

Symptoms usually appear **3–30 days** after a tick bite.

Early symptoms may include:

- A red expanding rash (sometimes shaped like a bull's-eye)
- Fever
- Fatigue
- Headache
- Muscle or joint aches
- Swollen lymph nodes

If untreated, Lyme disease can spread and cause problems with the joints, heart, or nervous system.

## How do I prevent tick bites?

- Wear long sleeves and long pants when outdoors
- Walk in the centre of trails and avoid tall grass
- Use insect repellent containing DEET or icaridin
- Check for ticks after spending time outside

## When should I contact a health care provider?

Contact a healthcare provider if you:

- Develop a rash or flu-like symptoms after a tick bite
- Feel unwell after spending time in areas where ticks may live
- Are unsure how to remove a tick or if part of the tick remains in the skin
